## SUMMARY

IT professional with 18 years of experience in network infrastructure, systems administration, and technical support, including more than 15 years in public service at a city government, a state university, and a state police agency. Currently supporting multi-site clients in an MSP environment in the Los Angeles area. Bachelor's in Computer Science (WES evaluated); certified in Linux (LPIC-1, LPIC-2, Linux Essentials) and Microsoft Azure Fundamentals, with AZ-104 in progress.

## CORE COMPETENCIES

- **Networking:** TCP/IP, subnetting, VLAN design, routing, DNS, DHCP, multi-site networks
- **Switching & Wireless:** Cisco, Extreme Networks, and UniFi switching; UniFi and Extreme access points
- **Firewall & VPN:** SonicWall, Cisco Meraki, pfSense; site-to-site and remote access VPN
- **Microsoft & Cloud:** Microsoft 365, Exchange, Entra ID, Active Directory, MFA, AWS (EC2, S3, VPC, IAM), Google Workspace
- **Servers & Virtualization:** Windows Server 2016–2022, Linux (Debian/Ubuntu, Red Hat), Hyper-V, VMware, Proxmox
- **Security & Backup:** EDR and endpoint protection (SentinelOne, ESET PROTECT), incident response, Synology backup and DR
- **Automation & Endpoints:** PowerShell, Bash, RMM platforms (NinjaOne, Tactical RMM), Intune, Apple MDM

## PROFESSIONAL EXPERIENCE

**IT Support Specialist — BROAD PC Inc** **Mar 2026 – Present**

*Los Angeles, CA (MSP, multi-client)*

- Deliver on-site and remote Tier 1–2 support across multi-client environments (offices, warehouses, retail).
- Deploy and maintain Cisco switches, VLANs, and UniFi wireless; manage SonicWall and Meraki firewalls with site-to-site and remote access VPNs for clients across LA, NY, and Miami.
- Administer Microsoft 365 and Entra ID, including user provisioning and MFA rollout; migrate email from on-premises Exchange to Microsoft 365.
- Maintain Windows Server 2016–2022 (Active Directory, DNS, DHCP, GPO) and Hyper-V hosts; run backup and disaster recovery routines with Synology NAS.
- Manage endpoint security (SentinelOne, ESET PROTECT): threat detection, incident response, and policy enforcement.
- Administer AWS (EC2, S3, VPC, IAM), including backup and security configuration.
- Deploy Intune and Apple MDM; automate patching and proactive monitoring with PowerShell and RMM tools (NinjaOne, Tactical RMM).

**IT Network Analyst (Contract) — FURIA Esports LLC** **Dec 2025 – Oct 2026**

*Redondo Beach, CA*

- Reorganized and labeled LAN cabling, centralized connections on a managed switch, and resolved workstation connectivity issues at a professional gaming facility, on an occasional on-call basis until the facility closed.

**IT Assistant (Contract / Part-time) — PC Tech Solutions LLC** **Oct 2025 – Feb 2026**

*Greater Los Angeles, CA: Los Angeles, Long Beach, San Pedro, and the Valley (Thousand Oaks, Encino, Sherman Oaks)*

- Executed weekend hardware-refresh projects at automotive dealerships (Hyundai, Porsche): workstations, printers, digitizer pads, and POS terminals.
- Migrated production switches at an aerospace parts manufacturer (Moog) and ISP links for enterprise sites (Extra Space Storage); installed structured cabling.
- Replaced server components on site at DirecTV (El Segundo) and POS/pin-pad hardware for national retail chains (Trader Joe's, Dollar Tree).

**IT Analyst I, Network Administrator — UNESP (São Paulo State University)** **Aug 2023 – Aug 2025**

*Rio Claro, Brazil*

- Replaced and configured more than 230 Extreme Networks managed switches and over 100 access points with minimal operational impact.
- Designed and implemented LAN/VLAN architectures, improving network segmentation and performance.
- Managed users, permissions, and services across Windows and Linux, including backups, network services, and security controls.
- Supported IP cameras and NVRs, VoIP telephony, and facial recognition access control. Supervised one employee.

**IT Support Technician — Piracicaba City Hall** **Nov 2012 – Aug 2023**

*Piracicaba, Brazil*

- Administered more than 3,000 Chromebooks across over 126 municipal schools and maintained over 2,000 IT assets. Supervised three employees.
- Installed and configured local networks, printers, and operating systems; standardized OS deployment with Clonezilla.
- Supported accessibility technology for students and staff (Braille printers, NVDA screen readers) and maintained backup routines.
- Supported a 24/7 municipal educational radio station, coordinating with an external vendor to keep broadcasts running.

**School Secretary — São Pedro City Hall** **Feb 2011 – May 2012**

*São Pedro, Brazil*

- Managed student records, enrollment, attendance, and transfers at a municipal school; also supported the computer lab and local network (GNU/Linux multi-terminal workstations, shared printers).

**IT Support | Intranet Developer — São Paulo State Military Police** **Feb 2008 – Feb 2011**

*Piracicaba, Brazil*

- Supported critical IT environments, including the 190 emergency dispatch center (Brazilian equivalent of 911).
- Maintained network infrastructure, operating systems, and databases (SQL Server, MySQL, Firebird).
- Developed internal web applications (HTML, CSS, JavaScript, PHP) that improved help desk workflows.
- Received a Personal Merit Award for recovering confidential data from a critical department after an equipment failure.

## EDUCATION

**Bachelor's Degree in Computer Science — Anhanguera College, Brazil** **2012**

Evaluated by World Education Services (WES) as equivalent to a U.S. Bachelor's degree from a regionally accredited institution.

## CERTIFICATIONS

- LPIC-2: Linux Engineer — Linux Professional Institute
- LPIC-1: System Administrator — Linux Professional Institute
- Linux Essentials — Linux Professional Institute
- Microsoft Certified: Azure Fundamentals (AZ-900)
- In progress: Microsoft Azure Administrator (AZ-104)

## VOLUNTEER EXPERIENCE

**Los Angeles Homeless Services Authority (LAHSA)** **Jan 2026**

Supported field data collection as part of a large-scale, government-led community initiative.
